-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Arguments

1. Applicant's arguments filed Jun. 05, 2006 have been fully considered but they are not persuasive.

In response to applicant's argument regarding claim 5, that the references fail to show certain features of applicant's invention, it is noted that the features upon which applicant relies (i.e., Muranaga does not "location-based translation services to a wireless device" and "at least one probable target language from the plurality of prioritized probable target language for transmission to the wireless device through a wireless network,"). Examiner respectfully disagrees, In specification paragraph [0012] described the location base is a service of translating a source language to a target language, therefore, the mobile terminal (10) send the original message (source language) to center (40) for translating to local language (target language) and send back to mobile terminal (10) through a wireless net work (see fig.1, element 32 and fig. 4, steps T1-T7).

In response to applicant's argument regarding claims 2, 3, 7, 10, 15-17, 19, and 23 that the references fail to show certain features of applicant's invention, it is noted that the features upon which applicant relies (i.e., Muranaga does not "the network node transmitting to the wireless device a target language according to the location of the device," and Kitahara does not disclose "a user, from a status of being able to generally choose applications on the wireless device, may select translation services via a single input to the wireless device and wherein the target translation language will be pre-

selected"). Examiner respectfully disagrees, "the network node transmitting to the wireless device a target language according to the location of the device" for the same reason described above with respect to claim 5 and also Kitahara does disclose "a user, from a status of being able to generally choose applications on the wireless device, may select translation services via a single input to the wireless device and wherein the target translation language will be pre-selected". In fig.5 and fig.18, the user of the mobile terminal (1) has a display (101) with plurality of languages option and user selects the automatic interpretation service by pressing of the up-down button as a single input (see fig.5, fig.18, step s 104 paragraphs [0037]-[0039] and its description).

With broadest reasonable interpretations above, therefor the previous rejection of claim 2 should be sustained.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to CongVan Tran whose telephone number is 571-272-7871. The examiner can normally be reached on Monday-Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nick Corsaro can be reached on 571-272-7876. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
